Olin NLR not an NPL since state was trying to do it
themselves [probably]

should call Chuck Morgan (Hq.)

and ask what I can do to get a
better idea of the comments and requests
necessary to provide a good assessment
purpose is to evaluate whether
problem is present from data not
re-analyze data

who ~~too~~ should look @ GCA report @ HQ and
can they provide comments

what are options for dealing w/ a
poor piece of work

May need to talk to Mary Beck u.r.t. TES-II
contract & trying to get a specific sub
(Steven Lavenhar - Life Systems Inc.) to
look @ Enday. asses. prepared by GCA
